NATURAL ELEGANCE. TIMELESS FINISH.

Exposed Wall Aggregates Texture

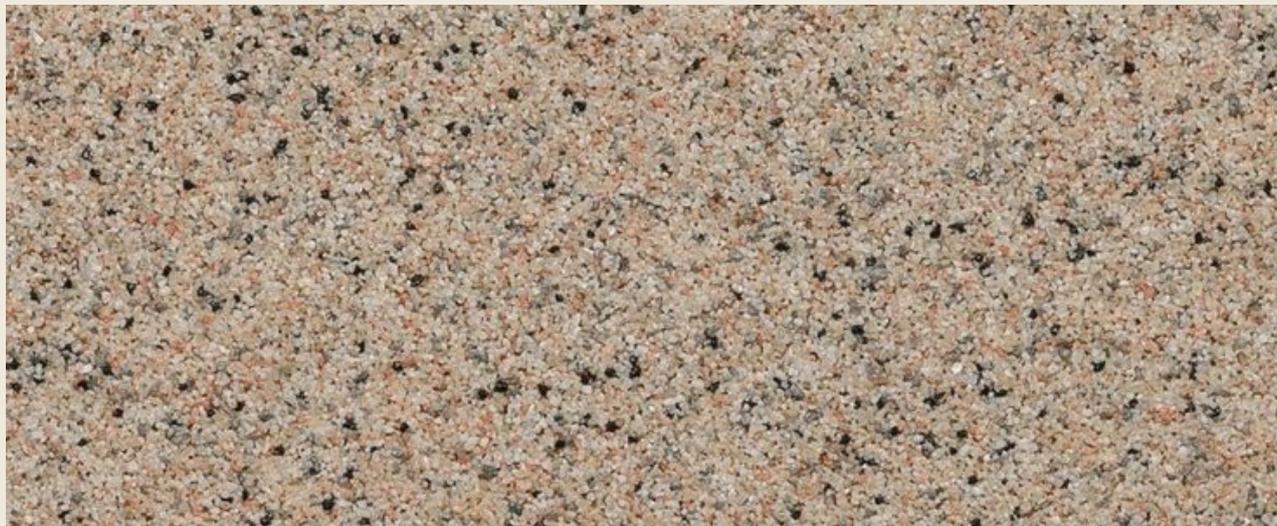

Marble Texture is a premium decorative wall finish created using finely crushed natural marble aggregates. Designed for drywall surfaces, it delivers an exposed, stone-rich appearance that combines durability with refined aesthetics. Ideal for contemporary, classic, and luxury interior spaces.

NEW ARRIVAL

Marble Texture offers a rich, tactile surface that enhances walls with depth, character, and natural variation. The exposed aggregate finish reflects light subtly, creating elegant visual movement while maintaining a clean architectural look.

BEST SELLER

Classic Marble Texture Finish

A customer favorite, this finish balances natural marble aesthetics with ease of application. Perfect for accent walls, lobbies, and statement interiors, it brings understated luxury to any space.

Crushed marble aggregates

Carefully selected to deliver authentic stone character, subtle tonal variation, and long-lasting visual appeal

Tactile stone feel

Offering a refined balance between softness and texture, adding richness and a luxurious sensory experience to interior spaces

TEXTURE SYSTEM

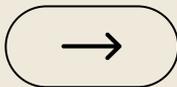

Crack-resistant performance & Uniform aggregate exposure

The Marble Texture system includes carefully graded marble aggregates and binders to ensure consistent finish quality, strong adhesion, and excellent durability on drywall surfaces.

HIGH PERFORMANCE FINISH

Marble Texture is engineered for long-term interior use, offering resistance to surface wear while maintaining its original appearance. The natural stone content ensures stability and visual richness over time.

DESIGN APPEAL

Authentic Stone Beauty

The exposed aggregate finish reveals the natural elegance of crushed marble particles, creating a handcrafted appearance that adds sophistication to any space. Perfect for designers and architects seeking natural materials combined with modern wall finishes.

IDEAL APPLICATION AREAS

Marble Texture is suitable for a wide range of premium interior spaces, including:

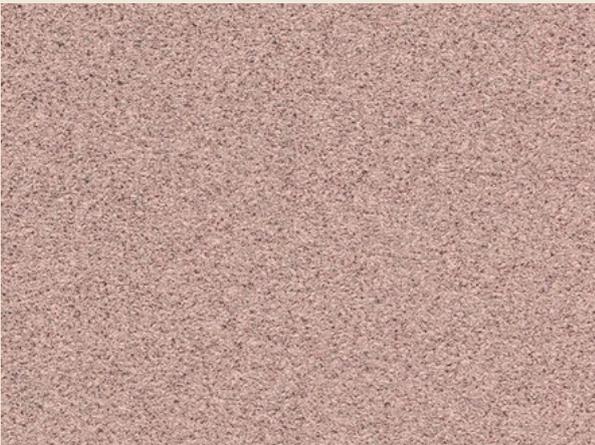

- Feature walls
- Living rooms
- Hotel lobbies
- Reception areas
- Luxury residences
- Commercial interiors
- Designer office spaces
- Showrooms and galleries

FEATURED FINISHES

Classic Sand Marble

A warm sand-toned marble texture created using finely crushed natural aggregates. This finish brings a soft, elegant stone appearance that enhances walls with subtle depth and natural warmth. Ideal for living spaces, feature walls, and contemporary interiors.

Rose Mineral Marble

A refined marble texture featuring delicate rose-toned aggregates that add sophistication and character to interior surfaces. The balanced grain structure creates a smooth yet tactile finish, perfect for premium residential and boutique commercial spaces.

Natural Granite Marble

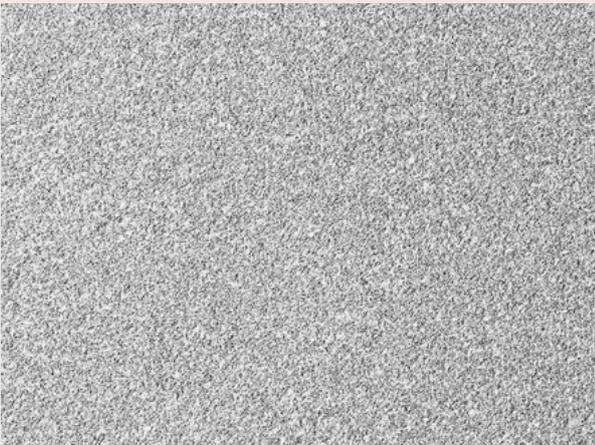

A multi-tone marble aggregate finish inspired by natural granite surfaces. The blend of mineral particles delivers rich visual depth and a bold architectural texture, making it an excellent choice for statement walls and luxury interiors.

FEATURED FINISHES

Alpine Granite Marble

A sophisticated marble texture featuring a blend of light stone tones with natural mineral speckles. The exposed aggregate surface creates a refined granite-like appearance, adding depth and character to contemporary interior walls.

Silver Mist Marble

A smooth grey marble texture designed for modern architectural spaces. The fine crushed marble aggregates create a clean and elegant finish that enhances minimal interiors with subtle texture and understated luxury.

Terra Copper Marble

Inspired by warm natural minerals, this rich copper-toned marble texture introduces warmth and bold character to interior spaces. The dense aggregate pattern delivers a striking visual presence ideal for feature walls and premium design environments.

TEXTURE COLLECTION

Marble Texture Finishes

Each texture highlights the natural character of marble aggregates, producing a timeless stone-inspired surface that complements modern, classic, and luxury design environments.

GRANITE MIST

Granite Mist Marble Texture showcases the natural beauty of finely crushed marble aggregates, creating a balanced exposed stone surface with subtle mineral variation.
