COL LEC TION

2025 - 2026

Simple and Minimalist Edition

WALL

Microcement walls offer a smooth, joint-free finish that enhances depth and texture. Ideal for feature walls, living areas, and commercial spaces.

FLOOR

A highly durable and seamless flooring solution with a natural aesthetic. Resistant to wear and easy to maintain, perfect for residential & high-traffic areas.

WET AREA

Water-resistant and slip-friendly finishes designed for wet areas. Creates a continuous, spa-like surface across walls, floors, and vanities.

SURFACE 1

A soft, natural finish with subtle movement. Ideal for calm, minimal interiors.

SURFACE 2

Balanced texture with a refined concrete look. Works beautifully in modern residential spaces.

SURFACE 3

Slightly bolder tonal variation, adding depth and character to walls and floors.

SURFACE 4

Organic texture inspired by raw concrete. Perfect for statement walls.

SURFACE 5

Smooth, contemporary finish with a uniform tone for minimalist designs.

SURFACE 6

A dynamic surface with handcrafted texture, ideal for luxury interiors.

ARCHITECT'S CHOICE

A preferred Microcemant finish among architects and designers for its understated character and performance. Suitable for continuous surfaces, from private residences to premium commercial interiors.

EXTERIOR

Microcemant is ideal for exterior surfaces such as building elevations, facades, terraces. Its weather-resistant and seamless properties ensure long-lasting performance.

APPLICATIONS

WET AREAS

Designed for high-moisture environments, Microcemant is perfectly suited for washrooms, bathrooms, and shower areas. When properly sealed, it provides a waterproof, slip-resistant surface

OF MICROCEMANT

INTERIOR

Microcemant offers seamless continuity across interior floors and walls, creating a modern and cohesive design language.

FURNITURE

Microcemant can be applied to custom furniture pieces such as tables, counters, vanities, and seating elements. It creates a seamless, sculptural finish that combines durability with contemporary design.

APPLICATIONS

POOLS

Microcemant is an ideal surface for swimming pools, offering a continuous, waterproof finish with natural texture.

OF MICROCEMANT

KITCHEN

Microcemant works beautifully on kitchen floors, walls, countertops, and dados. When properly sealed, it provides a hygienic, heat-resistant, and easy-to-maintain surface with a modern, minimalist look.

FINISH 01

A durable Microcemant finish designed for everyday use on tabletops and counters. Offers reliable resistance to wear while maintaining a natural concrete aesthetic.

FINISH 02

A smooth, refined surface with a contemporary look and feel. Enhanced sealing provides improved resistance to moisture, heat, and daily wear.

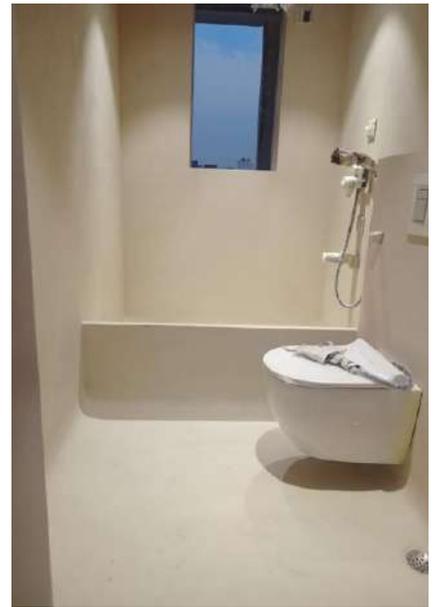

FINISH 03

A textured finish that adds depth and visual interest to furniture surfaces. Ideal for bold, statement pieces with a handcrafted character.

FINISH 04

A clean, minimal finish with subtle tonal variation. Perfect for modern furniture designs that emphasize simplicity and elegance.

Tailored microcement solutions designed to meet the needs of large-scale, custom, and commercial projects. Our flexible approach ensures design freedom, cost efficiency, and consistent quality across every surface.

EXCLUSIVE EDITION

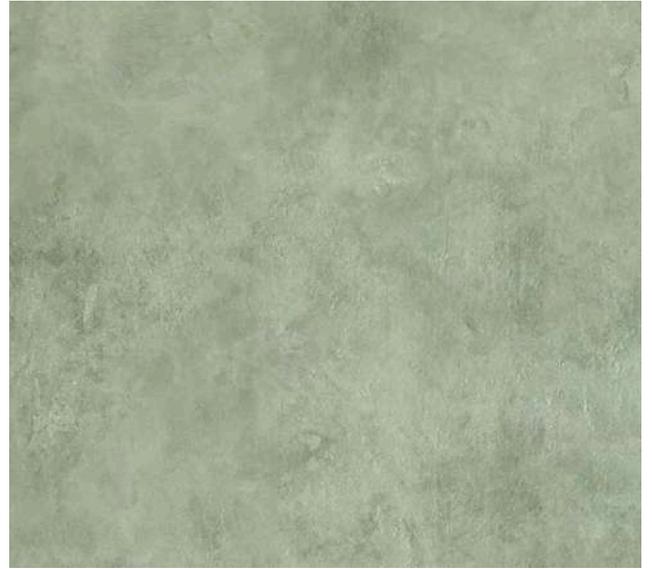

A curated approach to Microcemant designed for bespoke interiors and premium architectural spaces. Each project is treated individually, allowing complete freedom in finish, tone, and surface expression.

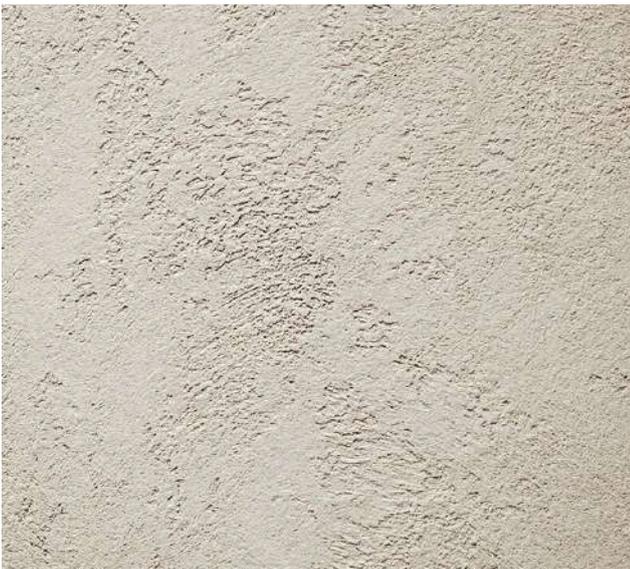

TEXTURE 1

A more pronounced texture that adds depth and visual strength. Designed for bold architectural interiors and statement surfaces.

TEXTURE 2

A soft, cloudy movement that reflects the natural character of cement. Ideal for calm, understated spaces with a refined aesthetic.

TEXTURE 3

A balanced finish with subtle handcrafted detailing. Offers a perfect blend of texture and elegance for contemporary spaces.

TEXTURE 4

A clean and uniform surface with minimal variation. Suited for modern interiors that emphasize simplicity and precision.

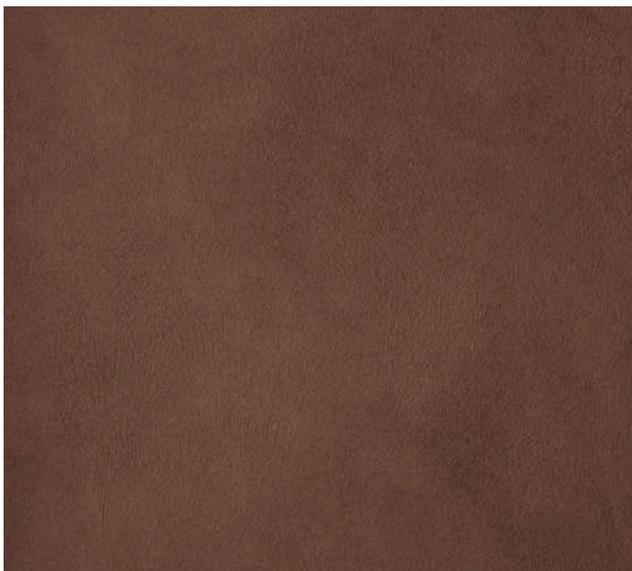

TEXTURE 5

A dynamic handcrafted finish with natural variation. Designed to bring character and individuality to feature surfaces.

TEXTURE 6

A refined, stone-like texture with subtle movement. Ideal for elegant interiors that demand quiet sophistication.

TEXTURE 7

A gently layered surface with soft tonal transitions. Creates warmth and depth without overpowering the space.

TEXTURE 8

A smooth, contemporary texture with a restrained visual flow. Perfect for minimalist spaces seeking a polished, seamless look.

Make your home feel effortlessly modern, seamless, and quietly luxurious.
