# STONE CARPET

SEAMLESS • STRONG • TIMELESS

A next-generation flooring solution crafted from natural stone and advanced resin technology. Designed for beauty, built for extreme durability.

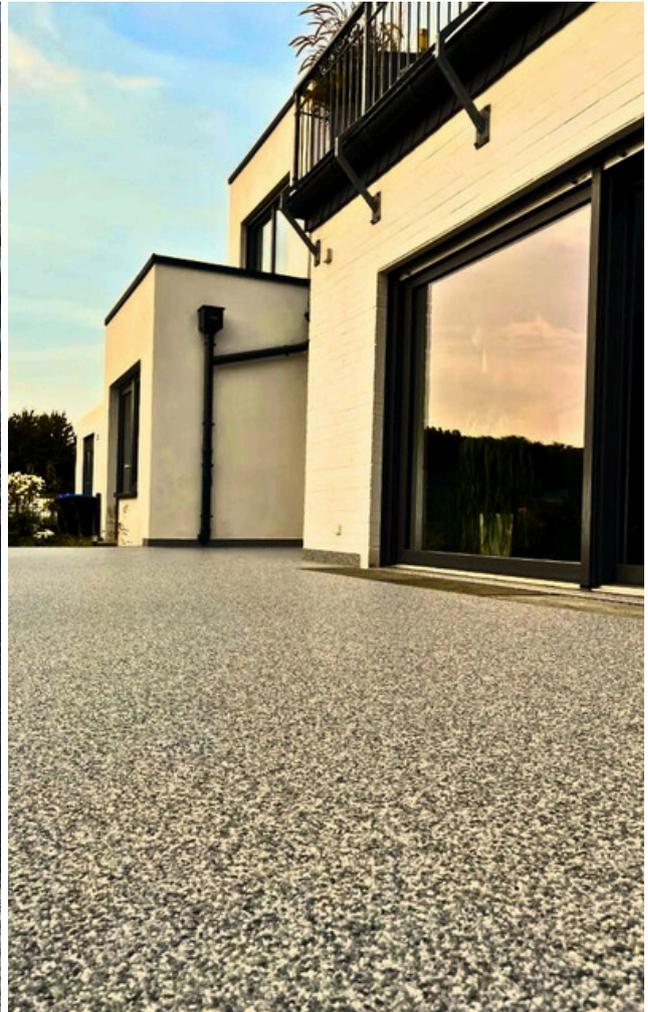

A stone carpet is a seamless flooring system made by bonding natural decorative stones (like quartz or marble chips) with a high-performance water based resin.

## BUILT TO LAST

- Only 6-15 mm thickness with exceptional strength
- Supports heavy vehicle movement, including trucks
- No cracking or tile breakage
- Seamless, joint-free finish
- Resistant to wear, impact, and abrasion

Life - 50+ years

Industrial-Grade

# FEATURES & BENEFITS

- Easy Application - Quick installation with minimal disruption
- No Perfect Leveling Required - Adapts to minor surface unevenness
- Weather Resistant - Suitable for indoor and outdoor use
- Ideal for wet and dry areas
- UV Stable - Maintains color over time
- Low Maintenance - Easy to clean and repair locally
- Designed to be reusable without loss of strength or quality

## SIMPLE & EFFICIENT INSTALLATION

- Surface preparation and cleaning, Mixing natural stone aggregates with resin
- Application and leveling by skilled professionals
- Curing to form a solid, seamless surface

The result is a strong, flexible flooring

ICON CEMANTART

Signature Series

## UV-STABLE & FADE RESISTANT

Stone carpet is formulated with UV-stable resin systems that protect the surface from prolonged sun exposure. Maintains color and finish even under prolonged sun exposure.

UV SAFE

Heavy-Duty

## ALL-CLIMATE DURABILITY

Designed to perform across diverse weather conditions, stone carpet withstands heat, rain, humidity, and temperature variations without cracking or peeling.

DURABLE

# DESIGNED FOR HIGH LOAD ZONES

## POOL DECK

The stone carpet surface provides a naturally slip-resistant texture, making it ideal for wet areas around swimming pools. Its water-friendly and porous structure allows efficient drainage, reducing water accumulation and enhancing safety. The material is also resistant to chemicals and weather exposure, ensuring long-term performance without surface deterioration.

DECK

Crack-Resistant

## CAR PARKING

Despite its slim 6 mm thickness, stone carpet offers exceptional strength and load-bearing capacity. It is designed to withstand continuous vehicle movement, including cars and heavy vehicles, without cracking or surface failure. The seamless application eliminates weak joints, making it highly durable under repeated stress.

PARKING

Easy Maintenance

## PAVEMENT

For pavements and driveways, stone carpet delivers a robust, crack-resistant surface that adapts to minor substrate movement. It maintains structural integrity even under frequent foot traffic and vehicle loads, while offering a clean, modern finish that enhances outdoor spaces.

PATHWAY

Wear Resistance

# ELEGANT & FUNCTIONAL SPACES

## BALCONY & TERRACE

Stone carpet adds a clean, modern aesthetic to balconies and terraces while offering excellent resistance to rain, heat, and temperature changes. Its seamless finish prevents water seepage, and the textured surface provides a comfortable, slip-resistant underfoot experience—perfect for daily use and outdoor relaxation.

### BALCONY

Appeals to architects

## EXTERIOR

Designed to withstand prolonged exposure to sunlight and changing weather conditions, stone carpet is UV-stable and color-fast. It performs reliably across all climates without fading, cracking, or surface damage, making it suitable for building exteriors, entrance areas, and open spaces.

### OPEN SEATING

Looks premium

## GARDEN

With its natural stone appearance, stone carpet integrates beautifully into garden landscapes and outdoor pathways. It enhances the visual appeal of green spaces while offering a durable, easy-to-maintain surface that supports regular foot traffic without disturbing the surrounding environment.

### COURTYARD

Combining aesthetics with performance, stone carpet enhances everyday living spaces with long-lasting beauty and strength.

# HOME DECORATION

Combining aesthetics with performance,  
stone carpet enhances everyday living  
spaces with long-lasting beauty and strength.

PRICE \$1100

## A LONG-TERM INVESTMENT

- Lifespan of 50+ years
- Resistant to stains, moisture, and wear
- Easy cleaning with regular water wash
- Localized repairs possible without full replacement

ENGINEERED FOR PERFORMANCE

## EXPERTISE YOU CAN TRUST

Backed by skilled craftsmanship and a deep understanding of materials, we deliver stone carpet solutions executed with precision, consistency, and long-term reliability.

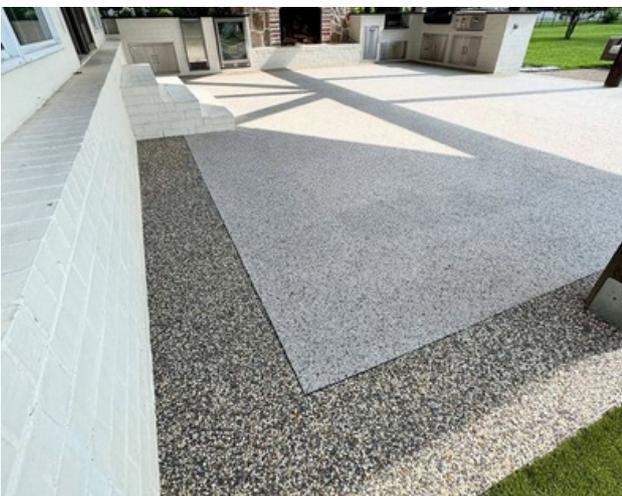

REFINED & PROFESSIONAL

## DESIGN & CUSTOMIZATION

Stone Carpet is available in a wide range of natural stone colors and blends. Custom patterns, shades, and finishes can be created to match architectural and design requirements.

UNIQUE & INNOVATIVE
